THE GREAT GRANT SHOW.

If you're walking, call me early hotel clerk
with diamond pins. And send to me, before I see a cocktail made
of gin.

For a grocer, I'll be off all the year, the
longest time I know.

And I won't miss, for a heavy pie, the
last time to prove, with

all the knowledge that man has for
thousands of years accumulated and
preserved.

It was Guttenberg that made an
epoch in the history of the world by
the invention of printing. It was
Galileo that made an epoch by the
invention of the Telescope. Kepler
by the discovery of the motions of
the Heavenly bodies. Newton by
the publication of his immortal "Principia."
Torricelli by the discovery of the
law of atmospheric pressure. Harvey
by the discovery of the circulation
of the blood. Adam Smith by
the publication of his Wealth of Na-
tions. Bacon by the introduction of
inductive philosophy. Columbus by
the discovery of America. Sir Hum-
phrey Davy and Liebig by the applica-
tion of the laws of Chemistry to
Agriculture. Franklin by giving us
the Telegraph. Watt by the invention
of the locomotive, down to Edison
who will give us the electric light.
Can it be said that all these great
geniuses were developed in conse-
quence of the auspices under which
they saw the light of this world?
When at the same time we know that
the very truths they discovered, that
all their useful inventions were often
entirely opposed to their use; that
they have been the riddle of the great
Grant show.

If you're walking, call me early, hotel clerk
with hasty air. And wish my cocktail send to me the
big bottle of fife.

For a grocer, I'll be off all the year, the

THE SOUTH KENTUCKIAN.

CHAS M. MEACHAM EDITOR.

HOPKINSVILLE, MAR. 30, 1880.

Jessie Raymond has left Washington at last, and ceased to persecute Senator Hill with her presence.

The Republican State Convention will meet in Louisville April 14, to appoint delegates to the Chicago Convention, June 2.

Rhode Island has fixed the initial gun on the Democratic side by instructing Tilden. Bully for Rhodey.

Edmunds is looming up as a probable compromise candidate with the Republicans, in the event Grant is not nominated.

John Kelly should not be allowed to take part in the proceedings of the National Convention, unless he will pledge himself to support the nomination of the party.

The appointment of district Judge will be made this week. The race is between Walter Evans and Dan W. Lindsay, with the chances in favor of the latter.

The Columbians are kicking at the position taken by the United States in saying that neither De Lesseps nor any other man shall be permitted to dig a canal across the Isthmus of Panama.

Somebody has circulated the report that Gen. Grant has expressed his intention to withdraw from the Presidential race. It is probably a trick of the Blaine or Sherman men.

It is hard to believe that the Border Minstrel is a very appropriate name for a Guthrie paper, at least one would think so who has ever had occasion to be there during frog time.

We have received the Franklin Local at last. It is a spicy and newsy little sheet, edited by Mr. A. W. Kelly, who is an old hand at the business. It is placed upon our exchange list with pleasure.

Senator Edmunds says the office of President has no attractions for him, and he doesn't want to be considered a candidate. No, nor the fox didn't want the grapes either; they were old sour things and not fit to eat anyway.

The Union Democrat, in a joking way remarked that the Dixon Pioneer and the local department of the Henderson News were going to consolidate, and several papers have copied it as an item of news. It is a joke on Sam.

The poem entitled "You kissed me," which we published two or three weeks ago, was clipped, and not addressed to us as some have supposed. Most emphatically we are not the fellow who kissed her, and take this method of correcting the erroneous impression. We think it is, nangly to kiss girls and never do the like.

An exchange says, "Perfect love never settled in a light head." This is hard on those who are not so fortunate as to be blessed with locks of raven hair. We don't believe a word of the statement, for our beauty is of the blonde type and we know that we can love harder than a mule can kick.

Gen Broadus has changed the name of the Guthrie Gazette to the Border Minstrel. He further announces that the Minstrel has come to stay. We trust it may prosper and meet with that success it so richly deserves. If it becomes as popular as the Bowdy Minstrels that visited this city, recently we will have a big audience to rattle his bones to.

The Evansville Courier is in error in supposing that the local press of Kentucky is in "opposition to Tilden and the Courier-Journal." Out of about sixty of our State exchanges they are all, with a very few exceptions, enthusiastic for Tilden, and even those who oppose him are just now looking for a soft place to fall after the Cincinnati Convention. Kentucky will send a solid Tilden delegation to the National Convention, just mark that down in your memorandum, brother Shanklin.

The committee appointed to investigate the Kellogg-Spoofford case in Congress have decided that the bogus Senator, Kellogg, must step down and out and the report made on the matter by Senator Hill, has caused the gentleman to get his back up to an enormous extent. Kellogg was elected by the Legislature of Louisiana which Hayes afterwards decided to be illegal, and broke up. The mills of the gods have ground slowly, but retribution is about to come upon Kellogg after being three years un molested in his ill-gotten position.

On last Monday, 22nd inst., a sensational report was put in circulation to the effect that the ship bearing Gen. Grant and party had been lost in a gale on the way from Tampa, Mexico to Galveston. Considerable excitement was created for a while, but the ship proved to be only a day or two late, and arrived at his destination. No doubt the friends of Blaine, and Sherman would have been glad had Providence interfered in their behalf and removed the obstacles that intervene between them and the Republican nomination. For our part we are glad he turned up safe, as we want to see the man who has been all over the world, humiliated by being ingloriously defeated by Uncle Sammy.

UNCLE SAMMY'S BOOM.

The Barfor Tilden. Three to One

Desiring to feel the pulse of the Hopkinsville bar, on the presidential question, we strolled out one morning last week and interviewed the members individually, with the exception of one or two who were not in at the time. We did not know the opinions of any of them and, undertook the task merely as an experiment to find how Tilden stood in the city, believing them to be representative men of the community. We give below their answers.

Judge R. T. Petree:—Tilden is my first choice, and Seymour next. Am afraid Tilden can't carry New York. R. W. Henry:—Am in favor of Tilden as the most available man and further think he did nothing wrong in adopting the pacific measures which he did when counted out. It would have been madness in him to have threatened and assumed the airs of a braggart.

Chas. Knight:—Hancock is my choice.

Judge G. A. Champiu:—I am for Hendricks first, but will support Tilden if he has a correspondent at Elkhorn. He thinks we might get all the local news out of the Register.

Mr. D. Hays:—Hancock is my first choice, but Tilden seems to be the coming man. I can see nothing objectionable in his past record, think he acted just as any patriot would have done in regard to the fraud perpetrated in the seating of Hayes, and if he is the man I will cheerfully support him.

L. M. Buie:—I am for Tilden, first last, and all the time. The people owe it to him and the party to vindicate him from the injustice done in robbing him of his seat four years ago.

Sam'l. O. Graves:—I think the logic of the situation demands Tilden and am for him in the opinion of the National Convention he can carry New York.

Judge Joe. McCarron:—I was one of the original Tilden men in Christian county, and do not propose to desert him while fraud and rascality oppose him. After him I am for Bayard or Field.

Joe Phelps:—After a very cursory observation, I am convinced that Tilden will be the man. I think the South and West will support any man nominated and believe Tilden is the most acceptable man to the East, and I will cheerfully support him as the Democratic nominee.

W. P. Winters:—I am for Tilden. Judge H. A. Phelps:—I am for Tilden over all other candidates, because I think justice requires it.

J. J. Boyd:—I am for Tilden. Judge J. W. McPherson:—I am in favor of Tilden, I believe the honor and integrity of the Democratic party demand his nomination. It is better to be defeated with him as our standard-bearer, than to elect any other man without vindicating him from the fraud perpetrated upon him and the party.

S. J. Boyd:—I am for Tilden. He was cheated out of the place once and we must elect him again and seat him.

Judge J. R. Grace, of Cedar Circuit Judge of this the 2nd District, was in the city holding his court and in answer to our question said "I am for Tilden, and you can put me down for him."

THE DEAD HEAR

THROUGH THE TEETH.

PERFUMES, CONCERTS, ETC. A wonderful new book, "THE DEATH OF THE DEAF," is now on sale. It is the history of the life and times of the author, a young man by the name of McCormick residing near Lamasa, was shot and instantly killed yesterday morning by a negro man. McCormick was passing the negro's cabin, when a dog ran out and attempted to bite him. He drew a pistol and shot at the dog. The negro became very much incensed, went into the house, procured his rifle, and shot the young man who expired almost instantly. The negro was arrested, and lodged in jail at this place late yesterday evening.

"I don't want that stuff"

Is what a lady of Boston said to her husband when he brought home some medicine to cure her of sick headache and neuralgia which had made her miserable for fourteen years. At the first attack thereafter, it was administered to her with such good results, that she continued to use it until cured, and made no enthusiasm in its praise, that she induced twenty-two of the best families in her circle to adopt it as their regular family medicine. That "stuff" is Hop Bitters.

Going to New Orleans in Character.

Shortly after the collapse of the Confederacy, an ex-soldier who had spent all his pay in rioting and whisky drinking found himself in Shreveport strapped and busted, yet full of expedients. Desirous of reaching his home he inquired the fare, and to hit dismay found it to be \$15. Now that amount was as big as a million in Billy's sight. After casting about he bethought himself of a scheme. The steamer *National* was nearly ready to leave her berth when Billy made his appearance on the wharf, and sang out.

"I say, Captain, how much do you charge to carry a barrel of whisky to New Orleans?" replied the Captain.

"Two dollars," replied Bill. "Send out a couple of your deck-hands and roll me aboard."

Capt. Hamilton saw the joke, and sent off the mud clerk to take the marks, weight, etc., of the "freight."

Billy was invited to a seat at the cabin-table by the Captain; and traveled to New Orleans in style, as a "barrel of whisky" by which name he was afterwards known.

Making a Newspaper.

It was an exceedingly cold night, and Mr. and Mrs. Bunby hugged the stove closely, he passing the time reading a paper, and she sitting looking into the fire.

Without any preface whatever, she dropped the poker. With so much force did it strike the hearth that Mr. Bunby stopped his reading abruptly, and looked over the top of his spectacles inquiringly.

Mrs. Bunby had a happy thought; quickly it was transmitted to Mr. B. John, said she, you remember some time ago you promised to tell me how newspapers are made.

Yes; just put some other time love.

No, now, please, John.

Again he tried to content her with a promise, but it was of no avail; she wanted to know, then, just how papers are put together.

He hesitated. The longer he hesitated the more impatient she grew, and he felt it. Seeing that post-moment was of no avail, he heaved a long sigh, laid aside his paper, and reluctantly began to unravel for his wife's edification the inner life of a newspaper.

The first place, said he, the copy is sent to the composing room—

Where does the copy come from? she queried.

From the editor and reporters, of course.

Oh, I see.

Then it is given to the type-setter—

What do they do, sit on it?

No—thunder, no; they are com-

posers who set it up.

How Postage Stamps Are Made

In printing, steel plates are used, on which 200 stamps are engraved. Two men are kept hard at work covering them with colored inks and pasting them to a man and girl, who are equally busy at printing them with large rolling hand-presses. Three of these little squads are employed all the time, although ten presses can be put into use in case of necessity. After the small sheets of paper upon which the 200 stamps are engraved have dried enough, they are sent into another room and gummed. The gum used for this purpose is a peculiar composition made of the powder of dried potatoes and other vegetables mixed with water, which is better than any other material, for instance, gum arabic, which cracks the paper badly. This paper is also of a peculiar texture, somewhat similar to that used for bank notes. After having been again dried, this time on little racks which are fanned by steam power for about an hour, they are put between sheets of paste board and pressed in hydraulic presses capable of applying two thousand tons. The next thing is to cut the sheet in halves; each sheet, of course, contains one hundred stamps. This is done by a girl with a large pair of shears, cutting by hand being preferred by machinery, which method would destroy too many stamps. They are then passed to two other squads, who, in as many operations, perforate the sheets between the stamps. Next they are pressed once more, and then packed and labeled and stowed away in another room preparatory to being put in mail bags for dispatching to fulfill orders. If a single stamp is torn, or in any way mutilated, the whole sheet is burned. For the past twenty years not a sheet has been lost, such care has been taken in cutting them. The sheets are counted eleven times.

Dr. C. J. Moffett—Dear Sir—I can't too strongly recommend your Teething (Teething Powders) to mothers as one of the best medicines they can obtain for their debilitated and sickly infants. I have used it with very satisfactory results the past summer with my own child, and while we have heretofore lost a child or two from teething under other remedies, our present child that has taken Teething is a fine healthy boy. Its merit is certain to make it a standard family medicine for this country for the irritations of teething and bowel disorders of children of all ages.

I am, very respectfully,

A. P. BROWN, M. D.

(Brother ex-Gov. Jos. E. Brown.)
